## **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Hyun Chung on 9/20/2006. This amendment was made to incorporate all of the structure of the apparatus claims (1-5) into the method claims (6-11) in order to put the newly presented method claims (as of 7/10/2006) into condition for allowance.

The application has been amended as follows:

**(1) In line 12 of claim 6:**

"provided on the side of said lancet and said case along a compression path of said spring, said locking and shooting structure"

has been added between "a locking and shooting structure" and "comprising".

**(2) In line 16 of claim 6:**

"the side wall having a bevel;"

has been added immediately following "provided on a side wall of said case;"

**(3) In line 20 of claim 6:**

", the free end employing the bevel"

has been added immediately following "in a locking state"

**(3) In line 23 of claim 6:**

"such that the elastic arm is automatically self broken by contacting the bevel and boarding inwardly when said lancet changes from the locking state to a shooting state;"

has been added immediately following "breaking point of said elastic arm;"

**Conclusion**
